The first choice in Product Presentation & Visual Communication for the Retail Environment

Introduction

Introduction

Mills Display prides itself on being the leading supplier, manufacturer and importer of an extensive range of point of sale, display, signage and printing products.
With over 25 year's industry experience, we will assist you in enhancing your business by providing effective, commercially-proven and affordable solutions. Our mission overall is to be the first choice in product presentation and visual communication for the retail environment.

Our methodology is simple and centered around 'getting results'.
We endeavor to meet your every expectation through creatively delivering high quality and inexpensive solutions with the greatest level of customer service.

Our team of experienced professionals across a broad range of retail disciplines with a blend of experience and commercial know-how means that we understand the needs of your business and will work along side you to find solutions that satisfy your display requirements.

Being one of only a few suppliers to work with such a diverse range of retail organisations, ranging from independently-owned businesses through to large multinational companies, has given us a level of insight into the retail sector few others can offer. This insight has allowed us to develop a diverse range of industry specific skills including extensive knowledge of various retail environments, product requirements, lead time pressures and service & quality expectations. We have a solution to suit every business.

Our 2010 move to a purpose built facility, comprising a national office, large capacity warehouse, extended manufacturing capabilities and an exciting new retail outlet makes Mills Display your one stop point of sale, display, signage and printing partner!

Fresh Produce

Nothing should detract from the impact of fresh, healthy and delicious produce. Our displays and equipment are designed to do just that - let the produce sell itself!

Fresh Produce

Ticketing

No one knows ticketing like Mills. In fact, that's how we started over 25 years ago. Talk to us about our wide range of standard items, or our ability to provide custom tickets with in-house design, printing and fabrication.

Shelf Management

From simple, clean pharmacy lines, to the complexities of fresh produce facings and gravity-fed beverage systems for retail and hospitality alike.

Shelf Management

Retail Way Finding

Aisle Signs must be functional, versatile, economical and suited to the store environment in which they hang. Titles should be interchangeable, clear and concise, fixed in place via magnets, clear sleeves or slide extrusions.

Retail Way Finding

Retail Way Finding

Retail Way Finding

Display Graphics

The shopping experience is key. Intangible elements, such as the instore ambience can be easily maximised with the installation of attractive graphics. With sophisticated state-of-the-art equipment and decades of experience of in-house production. Talk to us about brightening up your retail environment.

Display Graphics

Branding

Mills Display works with many of Australia's leading brands, helping them to communicate their message.

Light Box Displays

Specialising in slim line light box concepts using LEDs and edge lighting, Mills Display sources a wide variety of stock lines, with the facility for in-house manufacture of custom sizes and designs for project work.

Light Box Displays

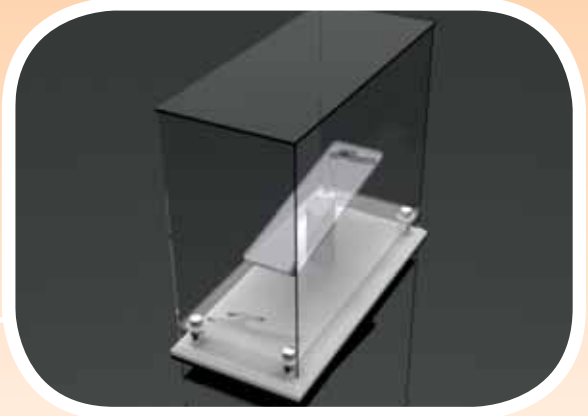
Award Winning Displays

Mills Display was proud to be the recipient of a number of prestigious awards in 2010, including the international ‘Inca Ideas’ award for best Digital Graphics for our incorporation of eco-friendly substrates and methods, whilst maintaining fantastic print quality.

Award Winning Displays

Plastic Fabrication

For over 10 years, Mills Display has had its own in house design, prototyping and custom manufacturing facilities



Plastic Fabrication

Injection Molding and Custom Tooling

Mills Display (New Zealand) has decades of experience in injection molding custom products in-house. From technical drawing, to innovative design, rapid prototyping and large scale, low cost runs, no project is too intricate or complex.
