# BULK FOOD BINS

GRAVITY DISPENSERS  
for merchandising  
"FREE TO FLOW"  
products

SCOOP DISPENSER  
for merchandising  
"HARD TO FLOW"  
products

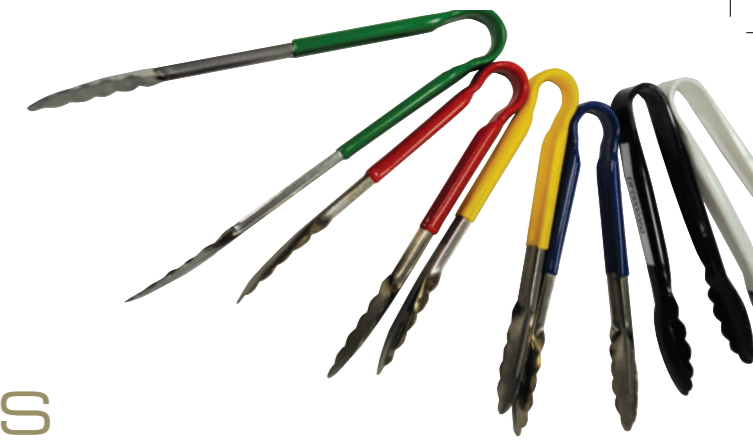

## FEATURES & BENEFITS

- Tamper resistant design and tight lid seal
- Easy to clean and dishwasher safe up to 130° F
- Virtually unbreakable polycarbonate construction
- Glare free label holder for food product & pricing information
- Scoop and tong holders (applicable on scoop dispensers)
- Multi-setting flow control reduces food waste and spillage (applicable on gravity dispensers)

Enhance your bulk food merchandising impact with our natural food & confectionery dispensers. These display solutions will enhance the look and feel of your store, while increasing sales and improving stock turnover.

## ALTIMATE FOODS

MANUFACTURERS OF ICE CREAM CONES

In 1967, Francesco Rizzo father of Joe, Pat and Michael commenced selling Gelato from a Mobile Gelato van. Francesco was one of the very first Mobile Gelato vendors in his time. He would venture out on weekends, selling ice-creams alongside the beach, parks and various festivals around Melbourne.

Eventually, Francesco's influence rubbed off on the boys and they started showing an interest in mobile gelato vending. The boys ventured out, growing the business to eventually operating 5 mobile vans as well as running kiosks at outdoor swim centres. They ran with the business for some 15 years developing a good understanding of the ice cream market and along the way establishing valuable relationships.

The boys, keen to progress, saw an opportunity to form a special partnership which led to the idea of producing ice cream cones.

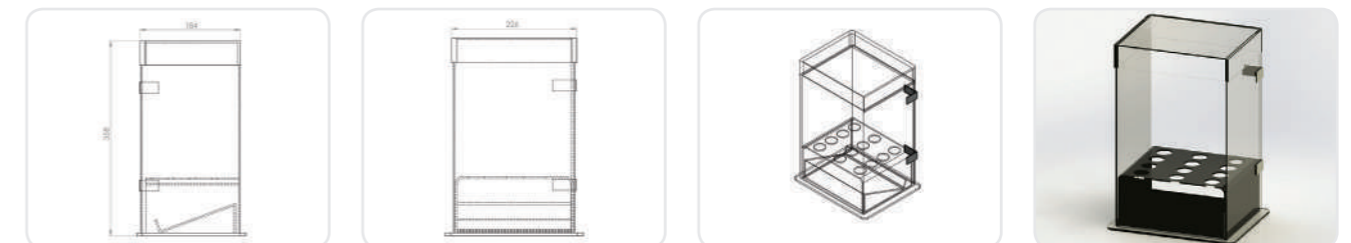

So in 1993 Altimate Foods was established, purchasing its very first semi automatic cone-baking oven. The machine produced their very first cones for 12 months before they decided it was time to invest in a new fully automated plant. In February 1994, the first fully automated plant was set up at Altimate Foods.

Today Altimate Foods are a leader in their industry and still proudly Australian owned & Australian Made, supplying to both the gelato & retail ice cream & hospitality markets as well as take home packs to Australia & New Zealand's largest Supermarkets and grocery stores.

Altimate's success in the market soon saw product being sold in ever increasing demand and to do the cones justice, Altimate offered a range of custom Acrylic Display & dispenser units. While these units were based on similar units seen in Europe, there were some improvements that needed to be made in order to allow the gelato stores better functionality through presentation, storage due to their fragile nature & access to the cones for serving.

Mills Display worked alongside Altimate to find the best solution for their growing needs, through understanding these needs Mills were able to draw initial concepts, prototype & test the dispensers and finally manufacture the dispensers now being used across a variety of gelato store, cafes and restaurants.

The newly developed functionality has seen sales in Dispensers grow by 300% as well as introduce new dispenser lines.

Michael Rizzo, Altimate's Sales Manager & Director, said "The new dispensers have been incredibly well received in the market. They improve the appearance of our cones as well as customer perception of the freshness. The dispensers really add value to the product and help our retail partners up sell their gelato offering."

Mills are continuing to work with Altimate Foods on a range of products, to see the latest on Altimate Foods or if you have an enquiry regarding a dispenser go to [www.altimatefoods.com.au](http://www.altimatefoods.com.au).

This is just one example in a long history of custom food displays, should you be interested in working with Mills on a custom solution for your food display needs, please contact an Account Manager in your state.
