MILLS DISPLAY

SSE SHOPFITTING

INTRODUCTION

Mills Display prides itself on being the leading supplier, manufacturer and importer of an extensive range of food display, point of sale, display, signage and printing products for retail. With over 25 year's industry experience, we will assist you in enhancing your business by providing effective, commercially-proven and affordable solutions. Our mission overall is to be the first choice in product presentation and visual communication for the retail environment.

This path has become clearer with our merger with SSE Shopfitting. Mills and SSE are now able to offer an end-to-end retail equipment solution from concept design, sourcing, project management and installation. SSE's range of standard shopfitting equipment, from metal/wire gondola shelving, to timber fixtures, as well as partnerships with a range of low cost/high quality factories throughout SE Asia make us the perfect destination for store improvement projects.

Our methodology is simple and centered around 'getting results' We endeavor to meet your every expectation through creatively delivering high quality and inexpensive solutions with the greatest level of customer service.
Our team of experienced professionals across a broad range of retail disciplines with a blend of experience and commercial know-how means that we understand the needs of your business and will work along side you to find solutions that satisfy your display requirements.

ANTI-SWEEP HOOKS

SPIRAL ANTI-SWEEP HOOK™

- Spiral Anti-Sweep Hook™ provides a secure solution for high-theft hangcell merchandise, while maintaining product availability for self-serve to the customer
- Each knob turn draws product forward, releases a single package and alerts store personnel when multiple products are being dispensed
- Eliminates sweeping through integrated dispensing coil
- Deters professional shoplifting
- Attaches securely to pegboard (hardware included)
- Mechanical audible alert
- Prevents cutting of hang tab through integrated enclosure
- Spiral Anti-Sweep Hook™ does not require assistance from store staff
- Ideal for use with Safer™ Security Boxes on pg17
- Works great for: batteries, printer ink, razor blade cartridges, razor handles, health and beauty, and more
- Call for details. Minimum quantities apply.
- Patented

SHELF SYSTEMS

THE POWER ZONE® TRAK-SET™

The Power Zone® Trak-Set™ Self-facing System combines the power of self-facing with the versatility of single track placement for product displays and non-perforated shelving. Trak-Set™ single pusher tracks are designed to be placed on any flat surface to provide the proven sales lift and loss prevention benefits of self-facing systems.

- Add pushers to any flat surface, including product displays, shelving and more
- System keeps products up front and always visible to shoppers, increasing sales
- Hands-free facing with automatically advanced product reduces in-store labor costs
- Designed to self-face a variety of package styles and sizes, including bagged and boxed product, as well as wide and heavier product
- Fits a variety of shelf depths: available for 305mm, 356mm and 406mm deep shelves; custom sizes can be Made To Order
- Can be attached with adhesive or fasteners, sold separately

SPECIFICATIONS:

Materials

- Tracks are white high-impact plastic
- Springs are stainless steel, variable force
- Can be made to order in custom colors and sizes

SHELF SYSTEMS

POWER-ZONE® ZIG-ZAG™ MERCHANDISING UNIT

- Power Zone® Zig Zag™ Merchandiser increases merchandising space with unique zig zag design that captures consumer attention from any angle
- Integrated self-facing system automatically keeps product faced
- Provides security against shelf sweeping
- Angled presentation increases the capacity of the merchandiser in addition to calling attention to product
- Product package billboarding is visible from any angle
- Visibility to branded graphics creates brand awareness
- Floating dividers allow for package size variation
- One-piece, lightweight design for easy installation
- Adjustable dividers accommodate a variety of package sizes
- Optional top grid provides additional security for top shelf
- 12 facings for razor refills; 1220mm W x 445mm D x 159mm H
- Beige injection-molded plastic casing and dividers (ABS and polycarbonate); steel side panels
- Patented

SHELF SYSTEMS

POWER-ZONE® ZIG-ZAG™ MERCHANDISING UNIT

- Provides theft deterrent by limiting access to the top shelf
- Integrated Data Strip® Label Holder displays pricing or brand messages
- Security Grid is a universal solution to both merchandisers
- Beige powder-coated steel grid, beige ABS tray
- Patented

CHANNEL FASTENER (6.35MM TO 9.52MM HOLES)

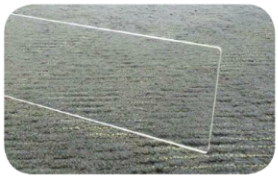
1 each

For use with Acrylic Shelf Limiter and Powerzone Trak-Set on perforated shelves.

DLP000005

GRAVITY FEED ROLLER SHELF

The Mills Display Gravity Feed Roller Shelf keeps items permanently faced up and when couple with a Security Cover acts as an Anti-Sweep solution. Shelves can be manufactured to any width or depth.



ACRYLIC SHELF LIMITER

The Mills Display Acrylic Shelf Limiter is designed to halve product capacity and therefore limit retail exposure to professional shoplifting. Available in high gloss white or clear acrylic. Can for fixed to both wire and solid shelves.

INVISI-SHIELD™

INVISI-SHIELD™

- Invisi-Shield® System* secures high-value, high-theft product, while allowing customers access to product for purchase
- Panels available for narrow or wide product; feature contoured edges for comfortable shopping
- Available in styles to protect product merchandised on either wire or solid shelves. The system can also be used in conjunction with roller shelves to provide the dual benefits of a self facing system with anti-sweep protection.
- Optional End Closure Panels to limit side access and protect product at the ends of the fixtures - available for most styles
- Optional Security bar covers provide added protection to consumer product when using Gondola Upright and Standard Shelf-Top Styles
- Security Hooks available for use with high-theft pegged product
- High-impact clear plastic panels are nearly unbreakable, even in high-traffic environments
